

Comprehensive Environmental Services

24/7 Emergency Response Hotline: 877.460.1038

# Employment Opportunity

**Position:** Health & Safety Officer, Rapid Response, Inc. Northampton, PA; Oxford, PA

**Introduction:** Rapid Response, Inc. currently has an opening for a Health & Safety Officer. We are looking for a focused, dedicated individual who is able to carry on the EWMI/RRI reputation of providing quality services.

## **Primary Duties & Expectations:**

- On call 24 hours/7 days responding in a timely manner to emergency spills dispatched from Northampton and Oxford PA offices as business dictates.
- Work entails: on call response and management of safety related activities during responses
- Reports directly to the Director of Health & Safety assisting in all assigned activities and directives
- Responsible for overall safety oversight on RRI jobs including but not limited to environmental spill response situations where working with chemicals, hazardous and non-hazardous wastes, confined space environments and other environmental remediation construction work is performed.
- Perform site safety inspections; may be tasked to support EWMI in a site safety role at times.
- Research site hazards, emergency HASP writing and completing applicable permits and Safety Meetings
- Knowledge of OSHA, DOT, RCRA and EPA regulations.
- Interact with emergency services including but not limited to fire, local and state police, EMS and regulatory agencies including OSHA, DEP, DOT and EPA.
- Possess the ability to solve problems and have the capability to work in challenging environments.
- Understand drum and container management and have a working knowledge of/willingness to learn Haz Mat, DOT and EPA/RCRA regulations.
- A "Hands On" approach is required; when necessary, assist with cleanup activities.
- Understand, practice and enforce company policies and procedures.
- Continuing education regarding OSHA standards and regulatory compliance
- Attend and successfully complete related specialized and technical training and education seminars/classes that will relate directly to this position
- Participate on EWMI/RRI safety committee
- This position requires overnight travel

**Interested candidates must be available for 24 hr. / 7-day timely response to meet business demands.**
